Godshall's Quality Meats Introduces Chicken Bacon

Boyertown, PA – (3-Nov-11) [Godshall's Quality Meats](#) – purveyor of [Turkey Bacon](#), [Beef and Pork Bacon](#), [Sausage](#), [Kielbasa](#), [Bologna](#) and more – recently announced the introduction of new [Chicken Bacon](#) to its extensive line of quality packaged meat products.

“Godshall’s – the industry leader in whole-muscle, thigh-meat-only turkey bacon – has developed a whole-muscle, chicken-thigh-meat Chicken Bacon in both an 8 oz and 12 oz size for the retail trade,” said Godshall’s Jeff Fisher. “There are no fillers, MSC, or extenders in this new product, and only natural wood smoke is used to give it a distinctive, wood-smoke aroma when cooked.”

According to Fisher, the new Chicken Bacon has the advantage of 60% less fat than a comparative portion size of Pork Bacon USDA standards.

About Godshall's

Godshall's Quality Meats - featuring [Turkey Bacon](#) - was founded over 60 years ago, and has grown from a single Butcher Shop with two employees to a company with two locations, in Telford and Lebanon, Pennsylvania, currently employing over 150 people. The Godshall family, now in its third generation of leadership, remains dedicated to supplying premium turkey, beef and pork specialty items to its loyal customers.
